凸轮分割器 Cam Indexer

凸轮分割器是一种高精度设备，用于实现自动化过程的间歇运动。具有卓越的分割精度、强大的传动扭矩、紧凑结构、低噪音、稳定性和长寿命，广泛应用于制药、食品包装、玻璃制造、印刷和电子领域。

A cam indexer is a high-precision device for intermittent motion in automation. It offers superb accuracy, torque, compactness, low noise, stability, and durability. Widely used in pharmaceuticals, food packaging, glass manufacturing, printing, and electronics, etc.

DF 凸缘型
Flange Model DF Series

DS 心轴型
Shaft Model DS Series

DE 凸缘心轴型
Flange Shaft Model DE Series

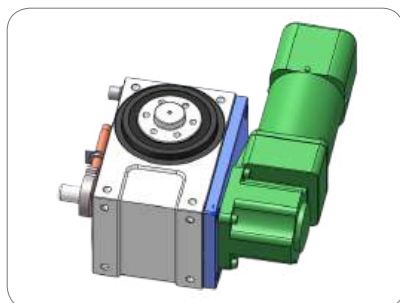

DA 超薄平台桌面型
Ultrathin Table Model DA Series

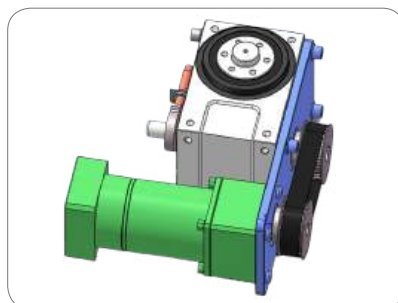

DT 平台桌面型
Table Model DT Series

PU 平行分度型
Parallel Indexing Cam Model PU Series

凸轮分割器带电机方案1
Cam Indexer with Motor Solution 1

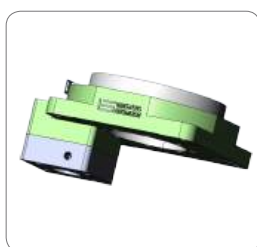

凸轮分割器带电机方案2
Cam Indexer with Motor Solution 2

中空旋转平台 Hollow Rotary Table

中空结构减速传动机构与控制系统结合，实现精确定位和多站分离。其独特中空设计简化布线和管道安装。旋转平台内部采用交叉滚子轴承，可水平、垂直或吊装。

The hollow structure deceleration transmission mechanism is combined with the control system to achieve precise positioning and multi-station separation. Its unique hollow design simplifies wiring and pipeline installation. Hollow rotary table adopts cross roller bearings, which can be installed horizontally, vertically, or suspended.

HRT 大口径型
Large Hollow Type HRT Series

HRTZ 重载型
Heavy Duty Type HRTZ Series

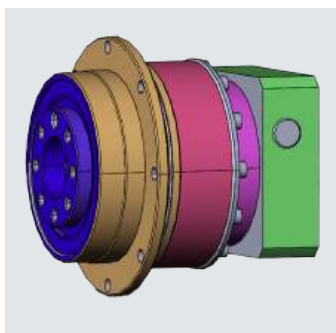

HRM 直角型
Right Angle Type HRM Series

HRTK 钢壳型
Steel Housing Type HRTK Series

HRH 海波齿型
Hypoid Gear Type HRH Series

行星减速机 Planetary Gearbox

三个行星轮围绕一个太阳轮旋转的减速机。高精度、平稳运行、高扭矩，适用于电子制造、包装机械、医疗设备与机器人等多个行业。

A gearbox with 3 planetary gears rotating around a sun gear. High precision, smooth operation, high torque, suitable for multiple industries such as electronic manufacturing, packaging machinery, medical equipment, robotics, etc.

PGH 斜齿型
Bevel Gear Type PGH Series

PGHR 直角斜齿型
Right Angle Bevel Gear PGHR Series

PGC 直齿型
Economical Spur Gear PGC Series

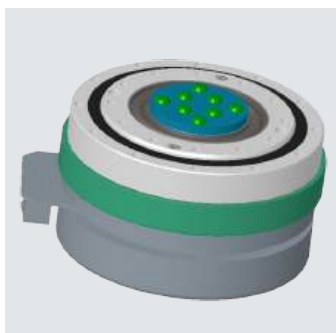

PGF 盘式输出型
Disc Output Type PGF Series

PGFR 直角盘式输出型
Right Angle Disc Output PGFR Series

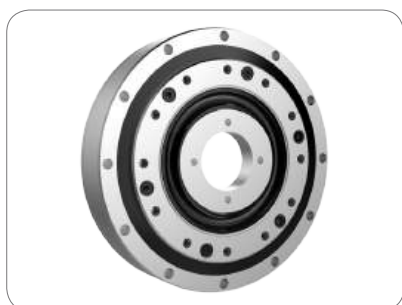

PGE 法兰型
Economical Flange Type PGE Series

谐波减速机 Harmonic Drive

柔轮与钢轮相互作用，将输入轴高速转动转换为输出轴减速旋转。体积小、精度高、传动效率高，适用于负载小、空间有限的地方，被广泛应用于机器人、医疗设备等领域。

The interaction between the flexible gear and the steel gear converts the high-speed rotation of the input shaft into a deceleration rotation of the output shaft. Its small size, high precision, and high transmission efficiency make it suitable for place with small loads and limited space. It has been widely used in robotics, medical equipment, etc.

SHD 超薄中空型
Ultrathin Hollow SHD Series

SHF 帽型
Hat Shape SHF Series

CSF 杯型
Cup Shape CSF Series

CSD 超薄杯型
Ultrathin Cup Shape CSD Series

精密齿轮加工服务 Precision Gear Skiving/Hobbing Service

采用日本卡希富基精密车齿机KPS30以及滚齿机KP800，专攻高精度减速机内齿及外齿加工，可加工最小模数0.1-2.0内外齿，最大外径300mm，齿轮精度可达国际标准5级。

We use the Japanese Kashifuji high-precision gear skiving machine KPS 30 and gear hobbing machine KP800, specializing in the processing of internal and external gears in high-precision reducers. We can process internal and external gears with a minimum module of 0.1-2.0 and a maximum outer diameter of 300mm. The gear accuracy can reach international standard level 5.

机加工服务 CNC Machining Service

我们提供各种复杂度的CNC加工服务，可生产小批量和大批量零部件。我们提供一站式服务，包括优化设计、试样、大批量生产、包装、物流等环节，严格的检测流程，保障每一件产品都是精品。

We provide CNC machining services of various complexities, capable of producing small and large quantities of parts. We provide one-stop services, including optimization of design, sample production, mass production, packaging, logistics, etc. Strict testing procedure ensures that every product is exquisite.

铸造件 Castings

将液态金属浇注至铸型型腔，待其凝固成形，获得铸造件。铸造件在尺寸、形状和复杂性上存在广泛差异，常运用于汽车零部件、机械零部件等领域。

Pour liquid metal into the mold cavity, wait for it to solidify and form, and obtain the castings. Castings can vary widely in size, shape, and complexity, usually used in various industries for applications ranging from automotive parts to machinery parts and so on.

铸铁件
Iron Casting

铸铝件
Aluminum Casting

工控组件 FA Parts

With the growth of business, Hansheng Automation has established long-term and stable cooperation with numerous domestic industrial automation and industrial control brand suppliers in China, forming a stable supply network in Europe, America, Japan, and other regions to ensure the original and authentic products. Collaborating brands include Siemens, ABB, Panasonic, Mitsubishi, Schneider, Bosch Rexroth, Honeywell, Kromschroder, ATOS, Omron, Delta, GSK, CTB, Innovation, Moons', Cincoze, Leadshine, ZSMC, NSK, Meyle, Koyo, Samson, INVT, ASCO, etc.

ABB变频器
ABB Inverter

西门子电源模组
Siemens SINAMICS Power Module

博世力士乐油泵
Bosch Rexroth Oil Pump

ENC变频器
ENC Inverter

三菱驱动器
Mitsubishi AC Servo Amplifier

斯特马格凸轮开关
Stromag Cam Limit Switch

台达/松下电机
Delta/Panasonic Motor

中大/迈力电机
Zhongda/Maili AC Motor

默孚龙滑环
Moflon Slip Ring

设备 Equipment

汉昇自动化引进先进的生产设备，确保自有产品的高质量稳定输出。公司基于自身强大的研发能力及项目管控能力，与十多家核心制造伙伴一起为您的定制零件生产提供强力支持。

Hansheng Automation has adopted advanced CNC equipment to ensure the high-quality and stable output of our own products. Based on our strong R & D ability as well as excellent project management capabilities, we are able to provide strong support for your customized parts production with more than 10 core manufacturing partners.

卡希富基车齿机 KPS30
Kashifuji Gear Skiving Machine KPS30

宁江数控卧式滚齿机 YK3610IV
Ningjiang CNC Horizontal Gear Hobbing Machine YK3610IV

台信数控铣床 TXC-T6
Taesin CNC Milling Machine TXC-T6

兄弟数控车床 TC-S2A
Brother CNC Lathe Machine TC-S2A

公司简介 Company Introduction

汉昇自动化面向自动化行业国内外客户，致力为工业自动化用户提供一站式产品服务和
技术支持。公司主要提供精密减速机，CNC数控加工服务以及工业自动化控制备件及
零部件。

Hansheng Automation is committed to providing one-stop product services and technical
support for industrial automation users. We mainly provides Precision Gear Reducers,
CNC Machining Services, and Industrial Control Spare Parts.
